RESPONSE TO NOTICE OF NON-COMPLIANT AMENDMENT

This paper is being filed in response to the Notice of Non-Compliant Amendment mailed December 21, 2004 (copy enclosed). In that Notice, with respect to the Amendment and Transmittal of Substitute Specification under 37 CFR §1.125, which was filed on December 2, 2004, it's recited that the "Abstract . . . does not have markings to show changes." A corrected "Amendments to the Specification" section is submitted herewith that meets the requirements of 37 CFR 1.121.

As noted on page 3 of the Amendment, the specification was amended to comply with U.S. formatting requirements and to correct certain typographical errors. No new matter was added. Pursuant to 37 CFR §1.125, the entire specification was replaced with a Substitute Specification. A marked-up copy of the original specification was also enclosed, showing the changes made. Applicants respectfully request that the Amendment and Transmittal of Substitute Specification under 37 CFR §1.125, filed on December 2, 2004, be entered with the enclosed correction.

Serial No. 10/091,359
Docket No. RDID 01033 US (WP 19070 US)

In the event this Amendment and Transmittal of Substitute Specification under 37 CFR §1.125 is still considered to be non-compliant, the Examiner is encouraged to contact the undersigned to resolve efficiently any formal matters or to discuss any aspects of the application or of this response.

Respectfully submitted,
